Medical Director

Las Vegas, Nevada

THE POSITION

Summary of Responsibilities:

Our client seeks a primary care physician to lead a new and innovative outpatient clinic serving the members of a large trade union in Las Vegas, Nevada. This is an ideal opportunity for a candidate seeking to join a fast growing and cutting edge healthcare provider focused on improving health outcomes rather than high production.

The Medical Director is responsible for the clinical delivery system of health care and for guiding the practice of medicine. The Director will have responsibility for 10 providers, physicians and extenders, with growth expected in the near future.

Essential Job Responsibilities/Functions:

- Develop roles, coordinate care and supervise physicians and physician extenders
- Develop, deliver and direct customer care within the expected guidelines and the scope of privileges approved
- Communicate effectively with all providers, clinicians, staff, customers and their families
- Consult and coordinate with health care providers within the organization and within the community
- Work with all other staff in the organization as a member of the entire health care delivery system
- Develop and implement a quality assurance program
- Help with sales efforts and customer relations by understanding their needs and bringing a professional medical perspective to bear during presentations and meetings as appropriate.

Qualifications:

- Current American Board Certification within primary care
- Current Valid Medical License
- 3 – 5 years of supervisory experience
- 5 – 7 years of experience as a board certified MD or DO
- Meets all requirements in order to obtain medical staff privileges
- Continual Medical Education to meet organizational and state licensing guidelines
- ACLS, BLS, NRP, ATLS, ALSO and PALS as required for specialty

ACTIVATE HEALTHCARE

Activate Healthcare offers a unique solution to employers to reduce and manage their healthcare costs by acting as their Health Asset Manager. Through a process of Assess => Deliver => Engage => Align, Activate Healthcare influences employee behavior in the areas of wellness, prevention, chronic disease management, and behavior modification.

Activate Healthcare provides leading edge tools, including: health risk assessments, remote monitoring software for high risk patients, a 24-hour nurse hotline, an electronic medical record, claims analysis, and a unique rewards program to incentivize employee behavior.

Activate Healthcare's mission is to help transform health care by empowering associates to take charge of their health and employers to take charge of health care costs. To accomplish this they:

- *Engage patients* in taking charge of their own health
- *Deliver primary care* at or near employers' locations with the time, tools and dedicated staff to know and serve each patient
- *Support a culture of health* to help make healthy habits the norm
- *Guide the health care continuum* to serve patients better at lower costs
- *Help communities achieve economies of scale* by enabling employers of all sizes to benefit from full-time dedicated care
- *Make the patient always be the center of our work*

They make it possible for each associate within Activate Healthcare to find meaning at work, live a balanced life and achieve financial security.

They manage the assets entrusted to them with care so that they can provide excellent service to their patients and clients and to ensure the growth, security and vitality of the organization.

They support the communities in which they serve by providing the same quality medical care and services for those in need that they provide to their other clients.

Las Vegas, Nevada

Climate:

Las Vegas enjoys abundant sunshine year-round; it has an average of about 310 sunny days per year. It is virtually free of tornadoes and ice storms. Dew points in the summer are exceptionally low and the winters are short and the season is generally mild. December, the coolest month, averages 47.7 °F. The mountains surrounding Las Vegas accumulate snow during the winter, but snow is rare in the Las Vegas Valley itself.

Living:

Las Vegas has been known for its diverse, enjoyable, and prosperous living. Local housing is surrounded by great schools, parks, easy access freeways, shopping, and jobs. People can choose from many different types of communities to fit their taste.

Schools:

It is estimated that 10 New Schools per year are being added to the Las Vegas Valley to accommodate growth. New teachers are added and communities planned around these new facilities. Families with younger children can find great elementary or middle schools. High schools generally rank well with others throughout the nation based on test results. Some, like Green Valley High School consistently rank near the top of the nation.

Demographics:

- **County Population: 1.81 Million**
- **Median Household Income: \$47,320**
- **Median Age Of Adults:47.9**

Undergrad college students have the selection of various schools to choose from within the Las Vegas Valley. Among these colleges is UNLV and Community College of Southern Nevada (CCSN).

Recreation:

Las Vegas has 68 parks and many, many golf courses. It is also responsible for 123 playgrounds, 23 softball fields, 10 football fields, 44 soccer fields, 10 dog parks, six community centers, four senior centers, 109 skate parks, six swimming pools and more.

There are 52 peaks surrounding the Las Vegas Valley, none more than an hour away, and people climb all of them. There is also mountain biking, kayaking, hiking, skiing, horseback riding.

Just a short 24 mile drive from Las Vegas is Lake Meade, the largest reservoir in the United States. Hoover Dam is only 35 miles and the Grand Canyon Skywalk is 124 miles away.
